DE
Ladefunktion per USB-Kabel für handelsübliche Geräte mit USB-Anschluss wie Mobiltelefone, MP3-Player und andere mobile Geräte. Nicht mit USB-Anschlüssen zur Datenübertragung an PC oder Laptop verbinden!
Die Ladefunktion des USB-Chargers kann aufgrund der Vielzahl der Anbieter und Geräte nicht in jedem Fall garantiert werden.

Hinweis: Die Sicherung im Inneren des USB-Chargers kann nicht ausgetauscht werden. Das Gerät kann daher nicht repariert werden, wenn die Sicherung beschädigt ist.

EN
Charging function via USB cable for commercially available devices with USB connection such as mobile phones, MP3 players and other mobile devices. Do not connect to USB ports for data transfer to PC or laptop!
The charging function of the USB charger cannot be guaranteed in every case due to the large number of providers and devices.

Note: The fuse inside the USB charger cannot be replaced. Therefore, the device cannot be repaired if the fuse is damaged.

FR
Fonction de charge par câble USB pour les appareils usuels dotés d'un port USB tels que les téléphones portables, lecteurs MP3 et autres appareils mobiles. Ne pas connecter aux ports USB pour le transfert de données vers un PC ou ordinateur portable !
En raison du grand nombre de fournisseurs et d'appareils, la fonction de charge du chargeur USB ne peut pas être garantie dans tous les cas.

Avis: le fusible à l'intérieur du chargeur USB ne peut pas être remplacé. L'équipement ne peut donc pas être réparé si le fusible est endommagé.
